

Re-opening Standard Operating Procedures*

****These SOPs are a living document and subject to change based on evolving local, state, federal guidelines. The safety of our youth, staff and volunteers is paramount as we resume in-person programming. Thank you for your understanding and cooperation - we are excited to see y'all!***

- ★ A mask covering mouth and nose at all times! *The "why": As the vaccine has only been available for youth 12 - 15 yo for a short period of time, we are following CDC guidelines based on unvaccinated folks. We have resources to provide to help you get vaccinated if you are 12+ yo!*

- ★ Temperature check, sign-in log, Covid-19 screening questionnaire and waiver required to enter! *The "why": an elevated temperature can be a symptom of Covid-19 and the screening questionnaire has additional questions that can identify a possible Covid infection or risk of infection. We have everyone complete the sign-in log in case we need to do contact tracing.*
 - Positive temperature: if an individual has a temperature of 100.4+ F, or positive screening questionnaire, the individual must leave the site and follow CDC guidelines.
 - If a youth is dropped off, their parent/guardian should wait outside for youth to pass screening before they leave. *The "why": just in case the youth doesn't pass the screening.*
 - If a parent/guardian is unable to pick up a youth who arrived via public transportation and does not pass the screening, one.n.ten will provide bus pass or Lyft credits for transportation home.

- ★ Negative temperature check + negative screen + signed waiver = join us for programs!
- ★ Physical distancing of at least 6 feet from other people in the space is required. *The "why": we are following CDC guidelines based on unvaccinated folks.*

- ★ Eating is not allowed at all Satellites (*The "why": satellite sites' rule*). Eating is allowed at the designated seating area of the YC kitchen.
